### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Babbitt (Reg. No. 39,591) on May 12, 2009.

The application has been amended as follows:

In the claims:

Cancel claims 1-7

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious an MRI based system and method where markers disposed on a medical device are imaged prior to insertion of the medical device into the patient anatomy, geometric information on the markers is stored in a MRI system, scanning the anatomy, and determining the location and orientation of the medical device inserted in the anatomy in relation to the anatomy based on the previously acquired geometric information on the target markers. The MRI system is further configured to disregard MRI signal of the target markers within the anatomy as noise and use of the stored geometric information on the target markers to lower the MRI signal detection threshold of the system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3737

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
